Buckeye community health plan provider directory 2019 calendar pdf

-After 5 days of isolation if symptoms not improving and/or fever continues consider calling doctor for more guidance. Our approach to medicine and patient care emphasizes physician-patient relationships; prioritizes prevention and wellness; and considers a patient's environment, beliefs, and values in their diagnosis, treatment, and care. Children often do not know that they should be able to see better than they do. Why is it important to have your child's hearing screened? To identify hearing problems, either temporary or permanent, that can hinder school performance. The purpose of early detection of potential hearing loss is to prevent permanent hearing loss during childhood and to identify students who need special accommodations due to hearing deficits. Keep your child home if they are sick, have a fever, or are awaiting Covid test results. + Members seeking to establish care can get priority service with OSU Wexner Medical Center and Central Ohio Primary Care providers. We are working closely with the most impacted specialties to further develop new patient capacity in provider schedules to meet the needs of members. + What are the differences between the Premier and Standard networks? - A single episode of diarrhea without other complaints. If you do have issues getting an appointment, please call the OSUHP Concierge Team at 614-292-4700, 7:30 a.m. to 5 p.m. Monday-Friday. Isolation guidelines for anyone testing positive for Covid-19: Anyone testing positive, with symptoms or no symptoms, vaccinated or not vaccinated, needs to stay home and isolate for at least 5 days (day one starts the day after your symptoms start or you test positive if having no symptoms). The child must be cleared by the doctor, Health Department or school clinic before returning to class. Those providers will participate in the Premier Network, beginning in 2020. If your child will not eat, keep them home. Family Resources: Our local health departments are wonderful resources for your child's health. In just the past two years, they have added providers in both primary care and specialties, and they are continuing to grow. + I'm not sure what to do. Whenever possible medication required by a student should be given before or after school hours. Please see the Administrative guidelines section on our website for additional information on management of casual contact diseases. One or both eyes may appear extremely red and feel irritated, itchy, or painful. + What should I do if I am currently under the care of a Standard Network provider for certain conditions such as postoperative care, cancer treatment or established pregnancy? + Benefits to Members Instead of your doctors and other caregivers working in silos, they can coordinate your care to provide you with better outcomes Better coordinated care for managing chronic conditions Lower costs by reducing duplicate or unneeded tests How were providers assigned to the networks? In those areas, we have included community providers in the Network to insure community access. The eye may be swollen and sensitive to light. Picture the ideal university campus. Fever A fever is a temperature of 100 degrees Fahrenheit or greater. + What should I do if I use a Standard Network provider and want to change to a Premier Network provider? If you can't stay away from household members, wear a mask that is at least three layers. - On the sixth day - If had no symptoms, normal activities may be resumed with the restriction of strict mask wearing for the next 5 days. Your child should remain home until all blisters are crusted over (usually 6-7 days after rash first appears). At this point, normal activities may be resumed with the restriction of strict mask wearing for the next 5 days. The OSUWMC provider network is also growing. Students, faculty and staff can access information and updates on measures we're taking at the links below. Forms can also be sent home with your child. Please call the clinic with any questions. Forms may be obtained at the school office or clinic. + Why are we making this change? If your child has two or more episodes in the past 24 hours or vomits during the night, do not send them to school. Hours and services may vary depending on the location and time of year. Eyes Thick mucus, pus, or 'sticky' eyes may be contagious. Members who live in zip codes that do not have adequate network access are eligible to participate in the OOA Plan. If symptoms develop, stay home and seek medical advice for being tested. Explore It What is the OSU Health Plan Concierge Team? Nasal Discharge If drainage becomes yellow/gold to greenish, please stay home until evaluated by your doctor. - Vague complaints of aches, pains, or fatigue. Colds General symptoms are watery discharge from eyes/nose, sneezing, mild cough or throat irritation. I will send home a referral. Sore Throat Sore throat with presence of fever, swollen glands, or white spots on the throat should be evaluated by your health care provider. + How will the specifically benefit members and the plan? What do I do if I use a provider who will be moving to the Standard Network and want to continue using that provider? The vision screening procedures are meant to aid in the detection of: defects in distance visual acuity, defects in binocular vision, and other observable abnormalities. -Those that tested positive in the past 90 days and recovered from Covid do not need to quarantine but do need to wear a mask and monitor for symptoms for 10 days. The temporary OOA benefit is available to a member who is enrolled in Prime Care Advantage, Prime Care Choice or Prime Care Connect and who will be residing outside of Ohio for at least 30 consecutive days. Hearing loss can contribute to educational delays and social isolation. May return when fever-free for 24 hours the use of Tylenol or Motrin, etc. Rash Rash of unknown cause are considered potentially contagious, especially when accompanied with fever and itching. + How does the cost and quality of Premier Network providers compare to Standard Network providers? Individual should test*** after day 5 regardless of symptoms being present or not. - Without intervention, there can be permanent vision loss, the development of learning disabilities, and/or emotional-behavioral problems that can lead to school failure. + What do I do if I can't get an appointment with an OSUWMC or another Premier Network provider? PLEASE REPORT TO THE SCHOOL IF YOUR CHILD HAS TESTED POSITIVE FOR COVID OR HAD A CONTACT WITH SOMEONE TESTING POSITIVE Covid Information Ashtabula County has adopted the latest ODH/CDC guidelines for isolation/quarantine related to Covid. Seek emergency medical care immediately at anytime during Covid infection if someone is having trouble breathing, persistent pain or pressure in the chest, new confusion, inability to wake or stay awake, and/or pale, gray, or blue-colored skin, lips, or nail beds. They offer immunization clinics and well child examinations. This screening provides only a snapshot of how your child performs on the day the test was administered and is not a substitute for a complete professional exam. If your child fails the screening, you will be informed of the test results. Lice or Scabies With lice, your child may return when treated adequately. Return to school when eyes have cleared, or after 24 hours of antibiotic treatment. We worked with Ohio University to complete a new \$65 million academic home for our Athens campus that will anchor the university's future Union Street green. Our Office of Inclusion works to nurture this culture on all three campuses through unique programs and resources for students, faculty and staff. Diarrhea Keep child home for two or more watery stools in a 24 hour period, or if accompanied by cramping, fever, and body aches. Please return the referral form to the school nurse. -Fully vaccinated* staff and/or student testing positive for Covid should isolate for at least 5 days and follow above Isolation guidelines. Explore It The Heritage College, Dublin is just minutes from downtown Columbus, home to some of Ohio's most respected health care providers, including OhioHealth, our preeminent education partner for the site. + Does this change impact any existing network providers "outside of Franklin and adjacent counties," members participating in the "Out-of-Area (OOA) Plan" or "Temporary OOA Benefit"? + Outside of Franklin and contiguous counties, the OSUHP network consists of statewide providers offered through a partnership with Ohio PPO Connect, which covers the majority of zip codes in Ohio. Ultimately, we're transforming how the next generation of health care leaders learn and how they deliver care to diverse patient populations. Fractures/Sprains or Surgery A doctor's note is needed to notify the nurse of any modifications to physical activity, length of the school day, mobility or transportation needs. At the Heritage College of Osteopathic Medicine, care is at the heart of who we are. + Will myBenefitsMentor® take into account the network changes to help me estimate my expenses during open enrollment later this year? + How are you addressing access issues, especially for OSUWMC specialty providers who already have long wait times for just to get a visit? A slight fever may or may not be present. - If symptoms improving or resolve and no fever for 24 hours straight without the use of medication, normal activities may be resumed with the restriction of strict mask wearing for the next 5 days. Our state-of-the-art Heritage Hall is reshaping how we work, learn and connect with our community. If your child has an IEP or a 504, screening will be done yearly, usually around the time of review. If your child passes the hearing and vision screen, you will not be contacted. + MISSION STATEMENT The primary role of the school nurse is to support student learning. School nursing is a specialized practice of nursing that advances the well being, academic success, and life-long achievement of students. Shaded pathways, lush greens and red brick walkways. + Why are you encouraging members to use OSUWMC providers? Section 3313.713 of the Ohio Revised Code (Medication Policy Law) and our board policy requires written permission from parents and written orders from licensed prescribers for all medications that are to be given at school, including over the counter medications. + What is changing this year in terms of the provider network? Our district practices a policy of "no live lice" - - - - - Test referenced are SARS-CoV-2 viral (PCR or antigen) tests. This is a 24-hour, free, multilingual confidential telephone information service to any social, health and human service programs and resources. Additional resources: Center for Disease Control, www.cdc.gov Ohio Department of Health: www.odh.ohio.gov National Institute of Health: What you need to know! What are Head Lice? It is important to know the outcome of the professional examination. Vomiting When a child vomits, they should be isolated from other children for 24 hours. The OOA plan does not require the use of network providers. (OHIO ID required; installation of Microsoft Teams is suggested before using links.) For Students For Faculty/Staff University Info Residency placement for Class of 2021 Institutional and external scholarship funding granted 2019-2020 Students supported through institutional scholarship programs 2019-2020 2021 graduates who matched in primary care The Heritage College is committed to maintaining a diverse, equitable and inclusive learning community. -Positive at-home Covid tests are to be self reported to the Health Department. TEST RESULT CAN BE FAXED OR SENT TO THE NURSE AT YOUR CHILD'S SCHOOL BUILDING Braden Middle School - Fax- 440-998-2793 - j.crossley@buckeyeschools.info Edgewood High School - Fax-440-998-6143 - c.mcgirr@buckeyeschools.info Kingsville Elementary School - Fax- 440-224-2452 - j.swiger@buckeyeschools.info m.struna@buckeyeschools.info Ridgeview Elementary School - Fax-440-998-2842 - l.murphy@buckeyeschools.info With a commitment to collaboration and a focus on osteopathic medicine, we train future primary care physicians and specialists to treat the whole patient, immersing them in osteopathic philosophy and practice from their very first days. Thank you for your cooperation. These represent the recommendations of the school nurse, the Ohio Department of Health, and the American Academy of Pediatrics. Remain isolated until symptoms improving or resolve and no fever for 24 hours straight without the use of medication. Does this network change impact the plan option I should select during Open Enrollment? Members with the temporary OOA benefit are not required to utilize network providers when obtaining services outside of Ohio, but if they travel back to Ohio for health care services, claims will be subject to the network requirements of the Prime Care plan in which they participate. Explore It Our newest campus is a joint initiative with one of the most respected institutions in medicine: Cleveland Clinic. What help is available? A member must apply for this benefit within 30 days of moving outside of Ohio in order to qualify. + What should I be doing now because of this change? Individual should test*** after day 5 regardless of symptoms being present or not. We have expanded our customer service team to offer more comprehensive, personalized support when you have a question or need help getting an appointment. Members must meet certain criteria to temporarily enroll in this plan. They should be proctored/observed by someone and cannot be an over the counter, at home test that was self-administered without a proctor. They should remain at home until without a symptoms for 24 hours. They do need to wear mask for 10 days and monitor for symptoms. Doctor's note must include dates of restrictions. Quarantine guidelines for staff and students -Fully vaccinated* staff and/or students with Covid exposure do not need to quarantine as long as they remain symptom free. See health resource tab for links Below is a link to more head lice information on the Kids Health website. Small parasite that lives on human blood Like to be next to warm scalp Avoids light Quick little "buggers" By time live lice are noticed you have usually had them for several weeks Not known to spread disease therefore are not considered a medical or public health hazard More information about head lice can be found on both Ohio Department of Health and the Center for Disease Control and Prevention websites. Bus transportation may be affected by the use of crutches. Please contact them to confirm availability and hours. Ashtabula County Health Department 12 West Jefferson Street Jefferson, OH 44047 (440) 576-6010 Ashtabula City Health Dept 4717 Main Avenue Ashtabula, OH 44004 (440) 992-7122 Conneaut City Health Department 327 Mill Street Conneaut, OH 44030 (440) 593-3087 211- Ashtabula County Family Guide to Community Services. With scabies, your child may return to school 24 hours after medical treatment has been started. Please self/parent monitor for symptoms of Covid each day before coming to school. KEEP at home: Chickenpox Chickenpox blisters appear in crops and may leave scars. We know that getting a quick appointment with a Premier Network provider will be challenging for a few specialties. May return to school when cleared by doctor, or after 24 hours of antibiotic treatment. Buckeye Local Schools continues to navigate Covid guidelines under the direction and guidance of the Ashtabula County Health Department. Remember, fever is a symptom indicating the presence of an illness. Child may return when rash disappears, or after medically recommended. + Will the network change affect my coverage when I or my covered dependents are traveling? -Fully vaccinated* staff and/or student with Covid symptoms should stay home, isolate and seek medical advice. If symptoms persist beyond 7-10 days, or if fever develops, keep child home and see your doctor. At the Heritage College Athens, you'll learn in this inspiring setting, alongside students and faculty from around the world. Hearing loss is invisible and the child may be blamed for not paying attention. The State of Ohio requires routine hearing and vision screens be done on children in the K, 1st, 3rd, 5th, 9th grades, and 11th as well as new students. The State of Ohio also requires vision screening for 7th graders. * fully vaccinated refers to some one that has had 2 doses of Moderna or Pfizer with in the last six months, one dose of Johnson & Johnson in the past 2 months or had the booster for Moderna, Pfizer, or Johnson & Johnson. Please call the clinic if with any questions. + Will this change in our network affect my deductible or the out-of-pocket maximum for my Ohio State University Faculty and Staff Health plan? A visit to the doctor is needed to confirm pink eye. If symptoms develop stay home, isolate and seek medical advice. -Unvaccinated individuals or those not considered fully vaccinated with a Covid exposure may attend school under the test to stay/test to play option with the restriction of strict mask wearing for 10 days after exposure. However, certain students may require the administration of medication during the school day to maintain an optimal health status for learning. During this global health crisis, we remain committed to providing the best instruction possible for our medical students while ensuring the continued health and safety of everyone associated with our college. Many skin problems are contagious (impetigo, scabies, and chicken pox.) The rash should be evaluated by a doctor before your child comes to school. The Heritage College, Cleveland, marks a new chapter in a partnership that began 49 years ago. To that end, school nurses facilitate positive student responses to normal development, promote health and safety; intervene with actual and potential health problems, and actively collaborate with others to build student and family capacity for adaptation, self-management, self-advocacy, and learning. (Journal of School Nursing) GOALS Promote a safe learning environment Promote and protect optimal level of wellness for students and staff Provide emergency care of ill and injured students Minimize lost instruction time GUIDELINES FOR KEEPING YOUR CHILD AT HOME GENERAL ABSENCE GUIDELINES Deciding when a child is too sick to attend school can be a difficult decision. When trying to decide, please use the guidelines below seek the advice of your health care provider. GO to school: - Sniffles, clear runny nose, and/or mild cough or throat irritation without fever. Stay away from other people as much as possible including your own household members. Important information to remember: -Masks must be worn on the bus and are encouraged in the classroom setting -Monitor temperature and for symptoms of Covid daily -Keep your child home if they are sick or being tested/awaiting Covid test results -Contact the school nurse for any questions or for guidance. Edgewood High School 440-997-5301 Braden Middle School 440-998-0550 Ridgeview Elementary 440-997-7321 Kingsville Elementary 440-224-0281 Screening Information Why is it important to have your child's vision screened? To identify if your child has vision problems or might be at risk for vision problems. Individual should test*** after day 5 regardless of symptoms being present or not. Qualification for this plan is determined each year. If you are not sure if your child should stay home from school or if they need to be evaluated, please call your doctor. Ears Drainage from the ear and/or ear pain should be evaluated by your health care provider.
